

TABLE OF CONTENTS

Preface.....	III
Chapter 1 Only Relevant Surgical & Medical Conditions (Relevant to Occupational Therapy but other than Orthopedics and Neurological Conditions).....	1
Understand about History taking	1
General examination of the patient	5
How to File Case sheet.....	5
Common clinical words used in history taking, general examination, and filling case sheets:.....	6
What is Hypertension.....	6
What is Hypotension.....	8
Diseases of blood	11
What is Anemia.....	11
What is Coagulation.....	28
What are Bleeding disorders?	33
What is Hemophilia?.....	35
Respiratory Tract:.....	37
What is Pneumonia?	37
What is Tuberculosis?	42
What is Bronchial Asthma?.....	49
What is COPD.....	52
What is Bronchiectasis?	53
Collapse of Lung (Atelectasis).....	55
What is Pneumonitis?	58
What is Pleural effusion?	60
What is Pneumothorax?	63
What is Empyema thoracis?.....	65
What is Lung Cancer	68
Diseases of GIT & Liver & GB	74
What is Reflux?.....	75
What is Esophagitis.....	77
What is Peptic Ulcers.....	78
What is Gastritis?.....	80

What is Intestinal Obstruction.....	81
What is Hepatitis.....	83
What is Cirrhosis of liver?	86
What is Cholecystitis?.....	87
Disease of Heart:	88
What is Congestive Heart Failure (CHF).....	88
What is Cardiac Arrest.....	91
What is Ischemic heart disease (IHD).....	94
What is Rheumatic Heart Disease.....	96
Diseases of Urinary tract.....	99
What is Benign prostatic hyperplasia.....	101
Endocrine System.....	103
What is Diabetes Mellitus	103
What is Hypothyroidism	108
What is Hyperthyroidism.....	110
Hypo Natremia.....	113
Hyper Natremia.....	115
Hypo Kalemia	116
Hyper kalemia.....	118
Hypo Calcemia.....	119
Hyper Calcemia	121
Infectious diseases:	125
What is Tuberculosis (TB).....	125
What is Typhoid.....	128
What is Malaria.....	129
What is Dengue fever.....	131
What is Leprosy	133
What is AIDS	135
What is Amoebiasis.....	136
What is Burn & Occupational therapy management of burn.....	140
What is Rule of Nine.....	146
What is Growth and development of a child.....	148
Defects and management:	157
What is Mental Retardation	157
What is Microcephaly	160

What is Blindness	162
What is Hearing Impairment.....	164
What is Speech Impairment	168
What is Squint (Strabismus)	169
What is Convulsions (Seizures).....	171
What is Cerebral palsy	174
Chapter 2 Occupational Therapy in Orthopedics, Neurological, Medical, Surgical & Sports Related Conditions	185
Details of examination of nervous system.....	185
What is Stroke & role of Occupational Therapy in Stroke.....	205
What is Meningo-encephalitis & role of Occupational therapy	209
What is Intracranial bleed & role of Occupational therapy	212
What is Head injury?	214
What is Traumatic Paraplegia & role of Occupational therapy?.....	218
What is Traumatic Quadriplegia & role of occupational therapy?.....	224
What is Epilepsy and role of occupational therapy?.....	226
What is Facial nerve palsy & role of occupational therapy?	230
What is Parkinsonism & role of Occupational Therapy?.....	233
What is Myasthenia Gravis & role of Occupational therapy?	237
What is Motor Neuron Disease (MNDs) & role of Occupational therapy?...	240
What is GB (Guillain-Barré Syndrome) & role of occupational therapy?.....	247
What is Ataxia & role of Occupational therapy?.....	250
Details of types of Fracture, its basic principle of management of all types of fracture?	254
Details of various conditions and role of Occupational Therapy?	265
What is Osteoarthritis (OA)	265
What is Rheumatoid Arthritis (RA)?	270
What is Gouty Arthritis?	272
Challenges in Diagnosis:.....	274
What is Ankylosing spondylitis (Bechterew's disease)?.....	275
What is Tennis elbow?	279
What is Golfer's elbow?	282
What is Tenosynovitis?	286
What is Plantar fasciitis?.....	290
What is Subluxation & dislocations of joints?	294

Specific OT Interventions for Subluxation:	297
Dislocations of joints	297
Commonly Dislocated Joints	299
Upper Limb.....	301
Pelvic Girdle	303
Lower Limb	305
What is Osteoporosis?.....	309
What is Osteomalacia?.....	312
What is PIVD?	314
What is Spondylolisthesis	317
What is Sprains & Strains & their basic principle of management?	320
What is CTEV?.....	324
What is Scoliosis, lordosis, Kyphosis?	329
Lordosis.....	332
Kyphosis	334
Treatment of knee deformity.....	341
Elbow deformity	343
Key Differences from Cubitus Varus	345
Details of TB of Bone, Osteomyelitis and role of Occupational therapy	347
What is Osteomyelitis?	351
Splints, Orthosis & Prosthesis used in Orthopedics	354
Orthosis.....	359
Prosthetics	362
Chapter 3 Use of Drugs	368
Use of NSAIDs, Opioid and Analgesics	368
Opioid	369
Overdose: Can be fatal, especially when combined with other substances	370
Use of Skeletal muscle relaxants.....	371
Use of Topical Analgesics and Muscle Relaxants	372
Muscle Relaxants	373
Sedatives	375
Use of emergency drugs.....	375
Chapter 4 Occupational Therapy in Rehabilitation	378
Occupational therapy role in medical and surgical conditions and rehabilitation methods for people with residual disability	378

What is Residual Disability?.....	380
Occupational therapy for persons with multiple disabilities.....	385
Physical Disabilities.....	386
Cognitive Disabilities.....	386
Sensory Disabilities	387
Emotional Disabilities.....	387
Neurological Disabilities.....	387
Developmental Disabilities	388
What is Geriatric Rehabilitation	388
Long term care, Hospital care, Hand splinting, Ventilator care including sensory stimulation.....	391
Chapter 5 Occupational Therapy in Pediatric and Developmental Disabilities	394
Physical Development.....	394
Psychological reactions to disability in childhood.....	397
Treatment Approaches:	399
What is Play Therapy?	399
What are Creative Activities?	403
What is Bobath Approach?	406
Brunnstrom-Movement therapy.....	413
(NDT) Neuro-Developmental Treatment.....	416
What is Rood Approach	419
PNF- Proprioceptive Neuromuscular Facilitation.....	423
Pediatric splinting and adaptive devices	431
Cardio Respiratory Conditions of Childhood	432
Chapter 6 Nursing Procedures	434
Understanding Vital Sign Recording	434
Understanding Injection Routes.....	436
What Is Oxygen Therapy	438
What is Nebulization.....	439
What is IV Infusion.....	440
Care of Unconscious Patient.....	441
Chapter 7 Occupational Therapy at a Glance.....	443
OT Therapeutic Interventions in Various Fields	443
Scales Used in Adl by an Occupational Therapist	446

How Ot Evaluates Muscle Strenght, Muscle Tone, Reflexes and Reactions ...	447
Basics of Ergonomics.....	448
Basics of Imaging Techniques	449
Code of Ethics – Occupational Therapist.....	450
References	453
